## COVER LETTER

Hello Sir/Madam,

I am writing to apply for your **Software Associate/ Specialist/ Analyst (PHP)** position at **SSL Wireless**, which is currently listed on your website's career page. I am a **PHP/Laravel Developer** with some level of experience in the field, and I would be thrilled to have the opportunity to work in a reputed company like yours.

I have worked as a **full-stack web developer** and a **freelancer** for the past two years, since graduating with honors with a degree in **Computer Science and Engineering**. During this time, I have had the opportunity to gain experience in both **front-end designing** and **back-end development**. As a result, I have realized that I truly enjoy this career because it allows for endless creativity. I am eager to continue growing professionally with a company like yours.

I am familiar with **Raw PHP, Laravel, and Javascript** programming languages and have proven to have exceptional **problem-solving** skills. I am also interested in front-end designing with **Bootstrap** and **JQuery**. I have practiced **PSD to HTML** for a long time and worked on many websites' front end. I also worked on some **WordPress** projects, so I am highly familiar with this **CMS**. I am experienced in managing **cPanel, WHM, VestaCP, and Linux Servers** through **Terminal**. I also have experience in **managing** a small team to complete a whole web project. I strive to build powerful websites that have a logical layout and are designed to convert. I work well under pressure and have no problems meeting tight deadlines. I enjoy the collaborative aspect of this job, and I'm always open to input and advice from my colleagues.

I would be honored to bring my skills and work ethic to support the team at **SSL Wireless**. Thank you for your consideration and I am looking forward to speaking to you soon to learn more about this opportunity.

Sincerely,

**Al-Amin Islam Hridoy**
